

JMF6 A level results 2024

Staff, parents, and governors at JMF6, the joint sixth form of John Mason School and Fitzharrys School, are proud of the achievements of all students receiving their A level and level 3 results today.

Following two years of hard work, and a morning of nerves and excitement, it was brilliant to congratulate JMF6 students as they head off to university, apprenticeships, and employment.

Amongst many superb results were Sonya who received 4 A* grades and is going to Cardiff University to study international relations. Max received 3 A* and an A and is studying Chemistry at Edinburgh University. Lilia got 2 A* and 2 B grades, she is heading to Exeter to read Law. Laura achieved 5 A* grades and is off to study Engineering at the University of Cambridge.

Students were congratulated by staff and classmates this morning, alongside accessing expert support and guidance in their next steps.

With 27% of grades being A*-A and with students across the board gaining places at university courses and apprenticeships of their choice, we are really proud of all our students and what they have achieved, and we wish them well in their next steps.

Will Speke, Headteacher, Fitzharrys School

Al West, Headteacher, John Mason School
